Danny Thomas, Metropolitan Laundry & Linen Service

"I've had Braun ironers in my laundry for years. When it became time to purchase another ironer, we purchased a refurbished two roll ironer that looks and performs the same as new, plus they offer a "Like New warranty" with the ironer. The decision to stay with Braun was quite simple.....footprint, and product performance. With Braun ironers I get consistent quality in the high end linens we process. The ironers have even pressure across the linen due to their torsion bar.

Braun ironers are reliable, easy to maintain and I can deliver a top notch quality product to my customers."
