

## Heritage Hotel— Manila Philippines

“We’ve been using our Braun washer extractors, flatwork ironer and folder since 1994. We are very satisfied with Braun’s performance, reliability and dependability.

*Laundry Manager*  
Heritage Hotel  
Manila, Philippines

“I have been the engineering manager for our laundry since we installed the Braun equipment. Before that time, I worked at another hotel where we also used Braun. My experiences has always been very good; the Braun machines are extremely reliable, and require limited maintenance outside of normal preventive maintenance and normal replacement of wear parts. As the condition of our equipment proves, if they are properly maintained, they remain in top condition and provide many more years of service. We have definitely received a significant return from our investment in Braun.”

“Even though our machines are older, and we currently do not have an immediate need for new equipment it is very satisfying to see Braun and their partner Technolux calling on our account. It is clear that they value all clients, and when it is time for us to purchase new equipment we will undoubtedly go with Braun!”
