

Crothall Healthcare Laundry—Birmingham, AL.

We are very pleased with Braun's remanufactured equipment. The machines look and operate like a brand-New machine!

Left-to-Right: John Killian, Laundry Engineering Director, Crothall Healthcare Laundry, Birmingham, AL.
Matt Gallagher, Braun Regional Sales Manager.

The Equipment consisted of Braun's Remanufactured and upgraded 200 and 400 lb. TSL Medicare Washer-Extractors.

"We are very pleased with Braun's remanufactured equipment. The machines look and operate like a brand-New machine! The washers were fully stripped, cleaned and remanufactured and upgraded in Braun's state-of-the art factory specializing in the process to fully remanufacture this equipment. All controls were new and machine was completely rewired with today's technology. The installation was smooth and on time. Braun provided complete training for our team for the operation and engineering professionals. We appreciate Braun's level of commitment to the customer and their attention to detail."
