

Ritz Carlton—St. Thomas, US Virgin Islands

We found the Braun equipment to be reliable, easier to maintain and performed better!

Joseph Cypre, Laundry Director, Ritz Carlton, St. Thomas.

“The Ritz Carlton St.Thomas is a 30 acre, 180 room resort located in the US Virgin Islands. We operate an on premise central laundry utilizing two flatwork ironing systems and several washer/extractors. As it became evident that we needed to expand our current laundry capacity, we began the search for the right fit to our current facility. The Braun team provided assistance in being able to make this happen with maximizing the production per square foot of the space available. Their 300PT Dryer and 250N2 Washer-Extractor was extremely space efficient and fit into our existing layout. We found the Braun equipment to be reliable, easier to maintain and performed better! Finally we have a direct relationship with Braun for support, parts and service advice which is very important to us.”

Joseph Cypre
Laundry Director
Ritz Carlton, St. Thomas.
