

Sea Island Resort – Brunswick, Georgia

This installation was the smoothest we have had for our team. We appreciate Braun's level of commitment to the customer and their attention to detail.

Cotton Johnson, Director of Laundry Maintenance, Sea Island Resort
Kathy Harris, Laundry Manager, Sea Island Resort

Sea Island Resort - Brunswick, GA is a Central Laundry servicing Five Star Resorts in Southeast Georgia. They had a multi-phased approach to upgrading and replacing their outdated equipment, and selected Braun as their supplier.

The equipment consisted of two Braun 450N2 Open Pocket washers. The installations involved close coordination with the laundry's work schedule and integral integration with an existing shuttle, monorail and drain system already in place at the laundry. "Both installations were smooth and on time. The new Braun washer provides us with greater production, reliability and faster turn-around time than previously installed Washex equipment. The Braun washers are more space efficient than the competitive brands we considered.

Braun also provided complete training for our team of operations and engineering professionals. This installation was the smoothest we have had for our team. We appreciate Braun's level of commitment to the customer and their attention to detail."

Kathy Harris
Laundry Manager
