SMALL-PIECE ROTARY ACCUMULATOR

BENEFITS

The Braun Small-Piece Rotary Accumulator (SPRA) operates as an integral part of a primary folder or folder/cross-folder. Mounted above the bypass table across the back of either the primary folder or folder/cross-folder, the Rotary Accumulator utilizes the folder's infeed conveyor to move goods from the flatwork ironer discharge.

The SPRA is ideal for draping and stacking small-piece ironed cotton, polyester/cotton, or spun polyester flatwork.

The microprocessor automatically measures each item to provide accurate accumulating/draping of various sized items from 12" X 12" to 28" W X 36" L.

The SPRA operates with flatwork ironers operating up to 150 feet per minute, and is available in 4 or 5 lane configurations.

The FSSPRA5 free standing accumulator is available in a 5 lane configuration.

FIVE LANE SMALL-PIECE VISA® ACCUMULATOR

BENEFITS

The Braun Five Lane Small-Piece Visa® Accumulator (FSSPVA5) is a free standing, caster-mounted accumulator for use behind almost any flatwork ironer.

It accumulates small flatwork goods, such as table napkins, at the rear on dual storage bars in each lane. The Accumulator has been configured to take the napkins off the ironer and drape them in half over the storage bars in stacks of up to 25.

The SPVA4, operating with a primary folder or folder/crossfolder, is 120 inches wide and has a four-lane configuration. It is capable of accumulating pieces as large as 24" x 24". The Braun Visa Accumulator is also available in (optional) 130 inch working width.

This accumulator is microprocessor controlled with complete on-board diagnostics for trouble-free operation.

SPECIFICATIONS

| Type | Model Number | Overall Dimensions (l x w x h) in (l x w x h) mm | Shipping Weight lb (kg) | Shipping Dimensions (l x w x h) in (l x w x h) mm |
|---|--------------|---|----------------------------|--|
| Free Standing Small Piece Rotary Accumulator | FSSPRA | 82" x 132" x 52" (2083 mm x 3353 mm x 1321 mm) | 1600 (726) | 57" x 144" x 66" (1448 mm x 3658 mm x 1676 mm) |
| Free Standing Small-Piece Visa® Accumulator | FSSPVA | 107" x 132" x 67" (2718 mm x 3353 mm x 1702 mm) | 1600 (726) | 57" x 144" x 78" (1448 mm x 3658 mm x 1981 mm) |

** For non-free standing accumulator units, see Precision Series Folder/Cross-Folder Brochure.
